

PURPLE CONTACT LENS & SPECTACLE

EYECARE PLAN

Spreading the cost of a Comprehensive Eyecare package - for people who value their eye health and vision.

THE PROBLEM

The cost of providing an eye examination is underfunded by the NHS.

The NHS does not fund investment in advanced instrumentation such as digital retinal and anterior eye cameras, corneal topographers and optic nerve scanners that we use in our eye examinations. These are things that help us take better care of your eyes!

A large part of the cost of providing our eye examination and the advanced instrumentation we use has to be subsidised by the sale of spectacles.

If everyone has an eye exam with us and purchases spectacles elsewhere, we will not survive to provide that service in years to come.

THE SOLUTION

You can help us to address these shortfalls, to secure the further development of your unique practice and save you money too!

By paying the true cost of an eye examination, you would benefit in return from huge savings on your spectacles.

AS A MEMBER OF OUR EXCLUSIVE PURPLE SPECTACLE EYECARE PLAN, **YOU PAY JUST £8 PER MONTH OR £8.50 FOR OUR CONTACT LENS PLAN AND RECEIVE:**

Unlimited eyecare appointments with access to all additional tests and instrumentation at no extra charge.
